TALLHEDA

(T)ransforming access to excellence
with successful (ALL)iances of (H)igher
(E)ducation in (D)igital (A)griculture

- TALLHEDA aims to address the lag in Digital Agriculture research and innovation in Widening countries, Greece and Serbia,
- by forming a long-term alliance between agricultural Higher Education Institutions in these countries and leading non-Widening universities,
- fostering innovation for the digital transition in European agriculture.
