Project Framework

This project has received funding from the European Union's Horizon Widera research and innovation programme under grant agreement No 101136578

Funded by
the European Union

TALLHEDA will build a new long-term Alliance for Digital Agriculture between agricultural Higher Education Institutions (HEIs) from Widening countries with leading non-Widening agricultural universities, and local and international stakeholders.

TALLHEDA Alliance will contribute to raising the critical mass of highly skilled scientists and to establishing liaisons with surrounding ecosystems.

Specific Objectives (SO)

SO1: To set-up sustainable, innovation-driven ecosystems in Widening countries

SO2: To achieve a balanced circulation of talents

SO3: To build transnational research bridges

SO4: To mainstream practices and tools for open sharing of knowledge and data

SO5: To strengthen careers of researchers from Widening HEIs

SO6: To bridge Widening HEIs to local surrounding ecosystems

SO7: To ensure long-term sustainability of the project's results

SO8: To deliver a well-managed project to the Commission and all project stakeholders
